DENT'S CASH GROCERY

"I never knew," said a young man in our hearing, the other day, "that it is just as easy to form the saving habit as the spending habit. I save money now that I used to throw away. It is all due to one of your little Metal Savings Banks. I have something to show for my work; it is the best move I ever made."

Call and get a bank. \$1 will open an account. If you can't call, send in your deposits by mail; we will send you the metal bank prepaid.

There is a lot of property adjoining the city which is enjoying the benefits of the city improvements and city government, yet the property we refer to is not within the corporate limits of the city. It should be taken in at once and made to pay the city tax.

We understand the different women's clubs of the town are going to take hold of the matter of cleaning up the dirty places in this city and also the matter of keeping weeds cut. This work should be aided by everybody who wants to make Baxter Springs a pretty place to live.

A few years ago the delinquent tax list from Baxter Springs was a long one, but nowadays it is very short—shorter in fact than that from any other town in the county. People have cleared up the taxes on their property and gotten it in shape to do something with. All this speaks well for the people. It indicates that they have more faith in the town than they used to have.

U. T. Gaba of the Baxter Planing mill, tells us he is going to put in a plant for the manufacture of wooden pulleys. He will increase his present plant so as to handle the business. As we understand it, there are only a few plants in the country where wooden pulleys are made. This being true, it seems to us that here would be a good place to engage in their manufacture. A great business could be built up right here in the big lead and zinc mining district of the Southwest.

The storm last Thursday night did considerable damage down in the mining camp. The wind was quite strong and blew down a great deal of stuff. The biggest damage done was at the mines of the Eastman Land and Investment Company, where a long tramway was blown down and reduced to kindling wood. The tram was wrecked so badly that the superintendent estimates the loss at about four thousand dollars. Other mines suffered considerable damage. The storm was quite severe in other parts of the country.

The recent rains put Spring river on quite a tear. It raised about seven feet.

Morris Doty is making some improvements on the property he purchased from W. A. Douthitt.

Several Baxterites braved the weather last week and took in the carnival at Galena. They say the attractions were very good.

"The Old Swimming Hole" is not being patronized as early in the season as formerly, and if the weather does not settle down to business pretty soon we are afraid the habit will be lost by the boys.

Not less than twenty-five new houses are going up in this city at the present time. But you would not think it, would you? Well, go around the edges of the town and you will be surprised.

One thing badly needed in this city is a flouring mill. Why can't some fellow who has a thorough knowledge of the milling business be induced to build a mill here. We will guarantee him a free site for his mill.

The Gregory Trading Company has just received a big invoice of mattresses and other bedroom comforts. The prices are less than you have been in the habit of paying, and you can not only make money, but save some by giving the Gregory Trading Company a trial order.

Baxter has the largest telephone exchange of any city in the country in proportion to population. And it is also one of the best managed, the service being as good or better than service in the big cities. Telephone rentals in Baxter are so cheap that nobody can afford to do without a "talk box."

The fire of last Thursday only emphasizes the fact that we need some fire protection. It costs more to build these days than ever before, and it seems to us the city should have some fire hydrants, so as to save what property we have. We haven't a single building to spare. In fact, we need many more.

Last Thursday's Fire.

Last Thursday afternoon Mrs. Gregg's barn was discovered on fire, and although heroic efforts were made to save it, the efforts were in vain. Some little boys and some matches made the combination which resulted in the destruction of the barn. The horse, harness and buggies were gotten out, and only the building and some feed was lost.

Why wouldn't it be a good idea to have a clean up day in this city? Other towns have such days, and they result in a general cleaning up of the town. Concerted action in such matters accomplishes a great deal. No town is too clean to clean up a little more.

There will be services at St. Mark's Episcopal church, next Sunday evening, as usual. St. Mark's church is becoming a very popular place of worship, and the sermons delivered by Rector Pooley are both instructive and entertaining. The music by the vested choir is fine, and as the choir has regular rehearsals it will reach the acme of perfection.
